Our “Thrive” programme for Women in Charity Technology is a leadership development programme designed to build the skills, capability, and confidence of women leaders in the charity and not-for-profit technology sector. “Thrive” will help to evolve and grow the leadership capability and confidence of women who are already in or are aspiring to be in a senior leadership role in charity technology.

## ‘Ask a member’

How can I get help, information, or advice from the CITL community?

There is a huge amount of expertise, knowledge, experience, and support among our members. And people are very willing to share and collaborate.

If you'd like to 'ask a member', email Claire with your query or question, and she will post this to the group.

[claire.jago@charityitleaders.org.uk](mailto:claire.jago@charityitleaders.org.uk)

Previous questions have received many responses, and generated a lot of follow-up conversations, so you're very likely to find the answers you need.

## We want to hear from you!

Do you have a case study, question, or recommendation for the CITL community?

This is YOUR bulletin, and an opportunity to showcase your organisation or team, share a case study of a project or programme, or ask a question.

If you have something to share with the group, please email Claire on [claire.jago@charityitleaders.org.uk](mailto:claire.jago@charityitleaders.org.uk).
